artists editions fine art (giclée) printing

BCS specializes in "Giclée" digital printing of fine art for artists and photographers on our large format Epson 10-color inkjet printers. We only use archival quality pigmented inks on museum quality rolls of 100% rag paper or 100% cotton canvas for permanence ratings of 75 years or more. We carry many paper and canvas stocks, including several premium lines.

Edition set up from original art requires a digital conversion via photography or scanning. This is tailored to the size of the original and the size of the output. Costs can vary from \$20 to \$125. Please refer to the photography and scanning fee schedule. From this digital file BCS produces a letter size proof (\$25) on the media of your choice for your approval.
